Wendy R. Dixon, EIS Project Manager  
Yucca Mountain Site Characterization office  
U.S. Department of Energy  
P.O. Box 30307, M/S 010  
North Las Vegas, Nevada 89036-0307

RECEIVED  
FEB 08 2000

To whom it may concern, Wendy R. Dixon,

1

           You must reroute the shipments of highly toxic radioactive waste through less populated areas. Please. St. Louis does not need this waste going through the most populated area in Missouri. You say the casts are safe? But the unsinkable Titanic sank. How ethical is it to send this shipment through the most populated area? You do have other choices.
